GLOBAL SPIRITUAL CONCLAVE

Dharma - Ideal & Praxis in the Emerging Global Scenario

24 - 27 August, 2017
Spiritual Zone Conference Hall, Santhigiri Ashram

Santhigiri Research Foundation
In Association with
ICPR, ICCR & ICHR, Sanchi University of Buddhist & Indic Studies, IOC, ONGC
Dear Sir/Madam,

Santhigiri Research Foundation, a division of Santhigiri Ashram, is organizing a four day Global Spiritual Conclave on Dharma- Ideal & Praxis in the Emerging Global Scenario, marking the culmination of one year Navati Celebration of the Founder Guru of Santhigiri Ashram, **Navajyothi Sree Karunakara Guru** from 24 to 27 August, 2017. It is our privilege and pleasure to invite you most cordially and personally to this global gathering of spiritual visionaries, philosophers, scientists, social scientists, government institutions, social activists and NGOs. You are requested to participate in this global event and share your experiences and views on the subject.

Affectionately

**Prof. DR. K. Gopinathan Pillai**  
General Convener, Global Spiritual Conclave  
Phone +91 471 2410345 Mob. +91 9447784067
Theme Note

Dharma, cosmic fundamental truths, natural laws, systems, designs and the ultimate reality that upholds and sustains the universe and human life, was revealed to humanity by the Enlightened ones or Atmajnanees of yore. Sanatanadharma and Yugadharma were the foundational principles of Indian spirituality, culture and civilization. In search of the immeasurable spiritual wisdom, seekers from the whole world has ever travelled to India.

Dharma being the Supreme Light and Cosmic consciousness has been the focus of scientific inquiry for quite some time. Innovative studies made by a band of Quantum physicists seeks to validate the Vedanta philosophy of India that there is only one Existent, Brahman or Supreme Light which illuminates everything and is the source of all manifested world. Hans Peter Durr notes, in his essay 'Matter is not made out of matter' that there is no matter but only light, the light of consciousness in this universe. The search of scientists over a long period of time to unravel the mystery surrounding the in-between nothingness has been resolved to some extent by the recent studies and findings, especially with the finding of the so-called divine particle termed Higgs Boson. Thus dharma, the eternal laws that govern the manifested world which the ancient seers got revealed from Parabrahma prakasham has been what the quantum physicists of spiritual persuasion been searching within the built-in limitations of mechanics.

Dharma as praxis was visualized as the sustaining and guiding principle of social and political life of ancient India as exemplified by Vedas, Upanishads and Dharma Sastras. Stories, legends and narratives in ancient writings under-gird the idea that Dharma as ought principle has been working as the regulatory principle of social life, polity and economic system in ancient India. With the gradual eclipse of Atmajnana or Rishi tradition, the actualization of dharma as a way of life and social order remained as an ideal rather than a praxis. Thus, when we examine dharma as the regulating principle of Indian social life, polity and economic life over the past millenniums, we find that at the existential level social inequalities and superstitious practices contrary to the true spirit of Sanatana dharma and Yugadharma had been in vogue in all realms of Indian life. Accordingly, Dharma was interpreted and reinterpreted in such a way that it was weaned away from its original sense of holding social life, family life and individual life in harmony with the eternal laws of nature or the cosmic will and design.

This dichotomy of dharma in theory and practice, as ideal and praxis has done
Objectives: The present Global Conclave is purported to provide a common platform for the confluence of scientists of spiritual persuasion, spiritual and religions heads and social scientists:

1. To indulge in truthful and fruitful introspection and intuitive pondering over the concept of dharma as ideal and praxis in every dimension of its manifestation.
2. To facilitate truthful introspection and review of the existing beliefs and practices in the background of the underlying spirit of dharma.
3. To Rediscover dharma as the guiding principle of individual life and social life to live in harmony without losing the togetherness and mutual trust which goes

The revelatory spirituality of the founder Guru of Santhigiri Ashram, Navajyothisree Karunakara Guru and the rising Santhigiri movement offers new hope and direction in this respect. A silent and all encompassing spiritual revolution is underway here towards the restoration of the Sanatana dharma and fulfillment of the dream of our forefathers that India would again decorate the Gurusthanam of the world in future. Hence, this conference in Santhigiri is purported to facilitate the emergence of a common and acceptable platform for all in rediscovering the eternal laws that lie behind all spiritual –religious experiences

**General Themes**

Dharma: Philosophical and Spiritual Perspectives  
Dharma: Quantum reality and Wisdom Tradition of India  
Dharma: Sanatana dharma and Yugadharma  
Dharma: Way of life and social practice - Historical and philosophical perspectives  
Dharma: - Guiding principle of human life  
Dharma: The metaphysical foundation of Indian ethics  
Dharma: Philosophical recourse to Human Rights  
Dharma: Foundational Principles of a Theory of Moral Action

**Sub Themes**

Dharma in relation to modern Science - Quantum Reality and Indian Wisdom  
Dharma in relation to Ecology- Climate Change, Sustainable Development  
Dharma and Polity- Governance, Law, Justice  
Dharma and Social organisation- social institutions, customs, traditions

**Registration Fee:**  
Indian Scholars: 1000/-  
Foreign Scholars:$100/-  
Students: 500/-
Organizing Committee

Chief Patron
Swami Gururethnam Jnana Thapaswi
Organizing Secretary, Santhigiri Ashram

Vice Patron
Prof. S.R. Bhatt, Chairman
Indian Council for Philosophical Research

Distinguished Members

Prof. Yajneshwar S. Shastri
Vice Chancellor, Sanchi University of Buddhist-Indic Studies, Bhopal

Prof. Balram Singh
President, Institute of Advanced Sciences, USA

Prof. Rama Rao Pappu
Professor Emeritus, Miami University, USA

Dr. Lee Geo Lyong
Prof. Department of Naturopathic Medicine,
SUN Moon University South Korea

Prof. Sebastian Velassery
Visiting Professor, JNU

Prof. Uttam K Pati
School of Biotechnology, JNU, Delhi

Dr. A.K. Merchant, General Secretary
The Temple of Understanding- India
National Trustee, Lotus Temple & Baha'i Community of India

Prof. J.S. Rajput, Former Director
NCERT, Delhi & Educationalist

Prof. Christopher K Chappel
Prof. Department of Religious Studies Loyola, Marymount University
Los Angeles, California

Prof. Sreekala M. Nair
Department of Philosophy
SSUS, Kalady

Dr. Swami Shaileshanandji
Holistic Inner Science Scholar

Indian Council of Historical Research
Indian Council for Cultural Relations
Sanchi University
Indian Oil Corporation
Oil and Natural Gas Corporation
Sree Gokulam Chits & Finance
Distinguished Delegates

Ven. Benegala Upasina Theor, President
Mahabodhi Society of Sri Lanka

Swami Chaithanya Jnana Thapaswi
General Secretary
Santhigiri Ashram

Swami Gururethnam Jnana Thapaswi
Organizing Secretary
Santhigiri Ashram

Swami Navananma Jnana Thapaswi
Director (Technical)
Santhigiri Ashram

Prof. P.V. Chaturvedi Swami
Head, Sri Ramanuja Mission Trust
Chennai

Prof. S.R. Bhatt
Chairman, ICPR

Prof. B.M. Hegde
Medical Scientist

Prof. Rama Rao Pappu
Miami University, USA

Prof. Mark Juergensmeyer
University of California

Prof. Balram Singh
President, Institute of Advanced Science

Prof. Sisir Roy
Scientist, IISc, Bangalore

Prof. Uttam Pati
School of Biotechnology
JNU, Delhi

Prof. Lee Geo Lyong
SUN Moon University, South Korea

Prof. Niskama
Scientist, Sri Chaitanya Saraswat Institute, Bangalore

Prof. M. Mohanty
Prof. Emeritus Delhi University

Prof. David Lawrence
University of Dakota, USA
